

FALLEN UTOPIA

Biography

FALLEN UTOPIA is a Metal band based in Carinthia/Austria. Heavy but modern guitars, strong Death/Black Metal vocals and always present fast drums form the musical fundament of the band.

Members:

Daniel Haslauer - vocals
Benjamin Knes - guitar
Lukas Wald - guitar
Maximilian Wald - bass
Dominic Raunigg - drums

History:

The band was founded by the current members, except for Maximilian Wald who took over the bass in mid-2017. Christopher Raunigg had that role for 11 years and finally contributed the 4-string part of Fallen Utopia's latest record "Disequilibrium", before exiting the band. Fallen Utopia took part in 66 music events until today, ranging from small bar concerts to big festivals gigs. Starting from the early days the band built up a strong fanbase, especially in Carinthia and can also refer to international live experience.

With regard to a study of the Pussy Metal Crew, Fallen Utopia is the Metal band with the highest number of gigs in Carinthia from 2010-2015.

In 2006 the first 3-song demo CD was recorded at CSW Studio, self-published and sold out, mainly to people taking part in the very strong Metal scene during this period.

A full length demo LP followed in 2009, again mixed and mastered at CSW Klagenfurt. Regarding quality, the EP "Nothing's Made for Eternity" in 2011, mixed and mastered by Massacre Studio in Styria was a milestone for Fallen Utopia, who joined the label Cursed Records for this release. The band is very well managed and supported by their label until today.

After some years of gaining more, especially international live experience, Cursed Records will release "Disequilibrium" by December 2017 in Carinthia and by the end of January 2018 world-wide. The album is composed of 12 brand new songs, recorded, mixed and mastered at Sound Delusion studio in Carinthia.
